## JOUD Patrick

Physiotherapist Certificate  
Certificate in Complementary Studies of SPORTS PHYSIO THERAPY  
University Degree 'PODOLOGY IN SPORT'  
University Degree 'NUTRITION IN SPORT'  
Osteopathy

Dear Sir,

Please find enclosed a request to integrate your team for the World Endurance or SBK Championship 2010.

I have had the opportunity for the past 15 years to prepare and follow pilots in several national and international championships.  
I have taken part in various trainings in order to better assist them and answer to their needs.

My wish is to join you in the hope of creating a real follow-up of the pilots throughout their season.

My motivation and competencies are real and genuine. Many actors of the French Motorbike Sport, Team managers or pilots could confirm this to you. I am autonomous, organized but I also know how to adapt to a structure that has its own rules.

I would really like to share our experience, my sociability and my good spirit. Joining your team would be for me very enriching both on a professional and human level.

You will find below the description of my professional cursus and the list of people having benefited from my services.

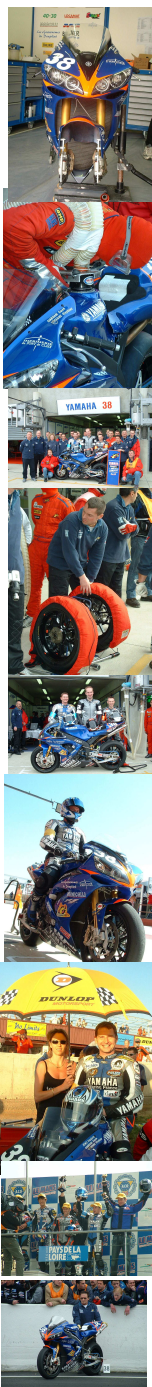

A website is available as an enhancement of my presentation if need be.

I greatly hope to meeting you in the near future, I remain at your disposal for any additional information.

Best Regards,

Patrick JOUD
